

COLIN BANKS

WILD
WORLD

C. Banks

LIMITED EDITIONS

Colin has a passion for exotic wildlife which is powerfully expressed in his innovative animal portraiture. The power of the subject matter combined with the technical panache of his creative process means these pieces are uniquely arresting and make a powerful statement in any setting

The level of detail in these images creates a sense of intimacy and closeness to these awe inspiring creatures. The depth of colour

and texture as well as the extreme accuracy of the likeness is achieved through a complex technique in which Colin uses airbrush, spray can and etching tools to build the artworks in intaglio (relief) directly onto aluminium. These then translate beautifully into limited editions created using dye sublimation - a sophisticated technique which gives superbly vibrant colours and a lustrous finish.

“ I’M AIMING TO PORTRAY
THEIR STRENGTH, INTELLIGENCE,
LOVE AND BEAUTY.”

ORIGINAL PAINTINGS

Colin is a committed conservationist and his concerns about endangered species, particularly the big cats, add a frisson of empathy and authenticity to each piece. There is also a strong sense of narrative; these animals have a story to tell, of past adventures and uncertain futures, and they issue an expressive challenge to us to look them in the eyes and listen to what they have to tell us.
